

DEATH IN FRIGHTFUL AVALANCHE OVERTAKES AN HUNDRED PEOPLE

VICTIMS BURIED UNDER TONS OF DEBRIS

Village of Mace, Idaho, Has
Been Wiped Out of Exist-
ence by Disaster

BURKE ALSO REPORTED BURIED BY SECOND SLIDE

Relatives Frantically Search
for Loved Ones—Hundreds
Brave Drifts to Aid

WALLACE, Idaho, Feb. 28.—Be-
tween one hundred and one hundred
and fifty persons lost their lives in
an avalanche of earth, rocks and
snow that overwhelmed the little
town of Mace last night, according
to conservative estimates today.
While but few bodies have been re-
moved, it is believed impossible that
many of the entombed can be alive.
They are buried beneath thousands
of tons of dirt, streaked with snow
and boulders, which is gradually
settling as the mass is packed by its
own weight.

Quantities of dynamite were rush-
ed to Mace this afternoon by a spe-
cial train to aid the rescuers in re-
moving the icy mass under which
the town is entombed. Hope is still
high that many persons may be shel-
tered by the houses, and still alive.
Efforts were made to drill a mini-
ature shaft through the debris, but
this was impossible on account of
great boulders impeding.

A report says that twelve were
killed in the second slide at Burke.
Victims of the Burke slide were killed
by flying debris, not buried, and
easily recovered. Great care must
be exercised in using dynamite, be-
cause there may be survivors be-
neath the debris.

FEARFUL DISASTER OVER- TOOK TWENTY-FIVE FAMILIES

SPOKANE, Wash., Feb. 28.—A
telephone message from Wallace,
Idaho, said twenty-five families, prob-
ably seventy-five persons in all, were
buried under an avalanche last night.
A special train left at midnight for
Wallace, carrying rescuers.

WALLACE, Idaho, Feb. 28.—At
daylight today twelve bodies had
been recovered from the mass of
snow and debris that overwhelmed
the village of Mace at midnight last
night. It is variously estimated that
from seventy-five to a hundred bodies
still lie beneath the avalanche.
Twenty-five were rescued alive, but
many of these are in a precarious
condition on account of injuries and
exposure.

Five hundred laborers are working
furiously with pick and shovel. It is
thought many of the entombed are
still alive, owing to the fact that the
wrecked buildings probably formed
shelters from the masses of snow
and ice. A special train is bearing
five hundred workers, who left here
early today, to aid in the rescue
work. Three bodies were recovered
from the Standard mine bunkhouses,
which were wrecked.

A chinook wind last night, cou-
pled with rains which fell all day
yesterday, melting the snow, is re-
garded as responsible for the ava-
lanche, which was accompanied by
tons of rocks and sliding earth. The
roaring of the avalanche was heard
here, five miles distant.

A partial list of the dead follows:

ASSESSOR READY FOR ASSESSMENT

States Raise To Be Maintained On Real
Estate—Scott's Field Deputies
Have Been Appointed

County Assessor W. M. Scott will
begin the 1910 assessment of Orange
county at noon of next Monday,
March 7. The assessment will be
upon property in hand on that day,
though the assessor's deputies will
not call on many of the property
holders until later. The assessor has
four months in which to complete
his assessment, the books to be
turned over to the Board of Super-
visors as a board of equalization up-
on the first Monday in July. In that
capacity the board sits for two weeks
and during that period any aggrieved
person may appear to state his
case, and if he shows good ground
the supervisors may reduce the as-
sessed valuation figure placed by the
assessor.

The raise made by the State Board
of Equalization last year will have
to be maintained on real estate.
Assessor Scott's field deputies are

all old hands at the business. They
serve four months and draw \$130 a
month from the county for their ser-
vices. The deputies who are to do
the field work are: E. A. Chaffee,
Garden Grove; George A. Ruddock,
Fullerton; John Kallenberger, Ana-
heim; Fred Struck, Orange; W. J.
Kelly, Tustin; R. C. Burkett and W.
R. Newman, Santa Ana.

The deputies go out with filled out
statements containing property de-
scriptions. The work will be done
as rapidly as possible in conformance
with making an equitable assess-
ment. The oath attached to the
statement is as follows:

"I do swear that I am a resident
of the County of Orange, that the
above list contains a full and correct
statement of all property subject to
taxation, which I, or any firm of

YUMA LINE PUT OUT FROM AUDITORIUM

Officials Say Time Will Have
No Bearing on Land
Applications

LOS ANGELES, Feb. 28.—Early to-
day the long line of homeseekers
forced its way into the Shrine Au-
ditorium, where applications for Yu-
ma farm lands will be accepted to-
morrow. Land office officials had dif-
ficulty in driving the applicants from
the building.

Officials announced that the doors
would be opened tomorrow, and that
the element of time would have no
effect in the receipt of applications,
all applications having an equal
chance to be successful. They are
making preparations to keep the
crowds orderly tomorrow.

able feat over which all the friends
of the Association are exchanging con-
gratulations.

PRESIDENT TAFT MAY BE WITNESS IN BALLINGER- PINCHOT INVESTIGATION

WASHINGTON, Feb. 28.—Shall
President Taft's utterances in regard
to the Pinchot Ballinger controversy
be divulged to the Ballinger investi-
gating committee? Attorney Vertes
representing Ballinger, raised this
question today when he objected to
Pinchot introducing as evidence the
substance of a conversation with Pres-
ident Taft last April. The question
will be decided tomorrow before the
committee reassembles. It is freely
asserted today that the committee will
have no option but to summon the
president. It is held he has made
himself liable to summons by engag-
ing in controversy. Further specu-
lation is rife as to the committee's
power to summon the chief executive.

ROOSEVELT HURT WAS WILD RUMOR

Report That Ex-President Had
Met Accident on Nile is
Quickly Contradicted

LONDON, Feb. 28.—A false rumor
was published here today that for-
mer President Roosevelt had been
seriously hurt in an accident on the
Nile. The report was later denied
by the papers first publishing it. The
Roosevelt party has left Gondokoro
for Mongalla.

"No Accident of Any Kind"
CAIRO, Feb. 28.—In reply to a
message from London informing him
of the rumor that he had met with
an accident, Col. Roosevelt said:
"Preposterous. I was never in bet-
ter health. There has been no ac-
cident of any kind."

Roosevelt and his party will prob-
ably reach Khartoum on March 15.

MURDERER IN MEXICAN JAIL

Rosario Sainz, Who Killed Ma-
chado, is Held for Sheriff
Lacy

Second Time Since He Got

in Custody

Sheriff Lacy today received a tele-
gram from Ensenada, Mex., saying
that Rosario Sainz, wanted in this
county for the murder of Juan Ma-
chado last September, was in jail
there and would be held thirty days
for Sheriff Lacy.

Sainz was in a Mexican sheepshear-
ers camp. He fired a rifle from one
tent to another distant about 100
yards. Three shots were fired. Ma-
chado fell dead. Sainz left in the
darkness. The Mexicans present de-
clared they knew of no suarrel be-
tween Sainz and Machado.

Sainz was in jail across the border
several weeks ago, and Sheriff Lacy
started after him. Through a lack
of understanding of the situation on
the part of the Mexican officials Sainz
was turned loose. Sainz is an Ameri-
can citizen.

The sheriff will go after the man.

Beekeepers Suggest Ordinance
Calling for Inspection and
Authority to Destroy

QUARANTINE IS ALSO SUGGESTED

Club Will Stand Back of In-
spector in Watch for the
European Foul Brood

On Wednesday of this week the
Board of Supervisors will be asked
to pass an ordinance for the protec-
tion of apiaries of this county against
the possible importation of the Euro-
pean foul brood, the most dreaded
of all apary blights.

This ordinance as proposed will be
in accordance with the suggestion of
the Orange County Beekeepers Club,
which held a meeting Saturday at the
courthouse.

The ordinance will propose that
any person bringing bees into this
county must keep them intact and
within twenty-four hours inform the
bee inspector of the arrival of the
stock. The inspector, who is J. E.
Pleasant, must immediately inspect
the shipment, and if there is any in-
dication of European foul brood he
must destroy the shipment, stands
and contents, if the owner of the
stock does not within twenty-four
hours remove the shipment from the
county. The bees are to be held un-
der the direction of the bee inspector
who shall keep close tab on them.

The club passed a resolution under
which it stands back of the bee in-
spector for whatever damages may
accrue by the destruction of ship-
ments.

The club proposed a quarantine
against any shipments from Fresno,
San Joaquin and Monterey counties,
in which counties the European foul
brood is known to exist. Deputy Dis-
trict Attorney Finley is looking up
this matter to see if a quarantine
can be maintained in accordance
with this suggestion.

The beekeepers club is proving it-
self to be a valuable organization,
and will continue to be of great help
to the beemen of the county.

than have been here before for
months. Thursday the number of
coastwise vessels in port, exclusive of
dredgers, government vessels and
small craft, numbered thirty-two. Of
these there were seventeen sailing
vessels and fifteen steamers. These
brought about 25,000,000 feet of lum-
ber to port.

PITTSBURG, Feb. 28.—The weath-

river will rise to the 28-foot mark to-
day or tomorrow. This will be six

overflowing the streams, and pre-
dicts thousands of dollars worth of
damage to the crops.

The barons are taking the ground
that they are not fugitives. A long

PHILADELPHIA, Feb. 28.—Politics
has entered the struggle of the strik-
ing carmen and their employes and as
a result it appears certain today that
one hundred and twenty-five thousand
union men will walk out Sunday. The
underlying trend of the political man-
euvering shows that the majority of
the city council, which might enforce
arbitration, favors the continuation of
the strike. The council is said to be
dominated by State Senator McNichol,
a co-worker of State Senator Clarence
Wolf, vice president of the Rapid
Transit company. The strikers de-
clare that Wolf is responsible for the
discharge of five hundred union em-
ployes, precipitating the present
strike. These will be effective when
all hope of a compromise has been
abandoned. It is generally agreed
that Philadelphia faces the most serious
industrial crisis in her history.

pending general strike, and the city
is fearfully alarmed over the pros-
pective business stagnation which
undoubtedly will result if 150,000

The labor leaders are as much
alarmed as the others. They declare

the greatest industrial embroglios of

NEW CONGREGATIONAL CHURCH IS OPEN FOR USE

Rev. Chas. H. Seccombe Opened Handsome Building With Eloquent Sermon—"The Church A Meeting Place"

Yesterday morning the first services were held in the new Congregational church, the handsome building being completed on North Main street. The Sunday school room was utilized for the exercises of the day, the first service being that of the Sunday school, which had a record breaking attendance. A special program signalled the first meeting of the Christian Endeavor Society at 6 p.m.

The day was one of rejoicing and the services were largely attended. The church will be completed in a few weeks, when the dedication will take place, but yesterday was the beginning of a long-hoped for era, and an eminently appropriate sermon, beautiful in thought and finish, was preached by Rev. Chas. H. Seccombe in the morning. A synopsis follows, beginning with the text:

"And there I will meet with thee." Ex. 25:22.

We enter this morning with joy upon the realization of our hopes for the larger usefulness of this church. Of the many things that crowd for utterance on this significant occasion, we must content ourselves with the one, and that the ministry of this new building. The church is rightly called a "Temple," "the House of God," "the Sanctuary," "a House of Worship." This morning we shall think of it in the homely expression which has come down to us from early New England days and which is justified by the words of the text, and shall speak of the "Church, a Meeting House."

And such it is. Among the factors which have influenced and shaped human history from the beginnings of society down to modern times, one of the most potent is the meeting together of the people. In savage life the braves encircle the camp fire and adopt plans of warfare or form standards of primitive conduct. In the celebrated armies that besieged Troy, the Grecian warriors were incited to deeds of valor as they assembled in the tents of Achilles and Agamemnon. The ancient Hebrews assembled at the gate of the city to conduct civil transactions and before the tabernacle and later the temple for the inspiration that found expression in national ideals.

It is a far cry from these remote scenes in American life, but here we find the meeting place unabated in power. The town meeting of New England framed the community legislation and gave direction to our national history. Boston commons created public opinion and the assembling of people every Lord's Day at

the white meeting house found expression in patriotism and virility of character. Even the old time corner grocery store, which many of you remember, has been a factor in our national life. With their feet dangling over a barrel, and their nimble jack-knives whittling toothpicks, these forerunners of ours were discussing questions of federal authority and of national righteousness, and thus was public opinion coming into its own.

The influence of people assembled together may be beneficial or it may be baneful. There is such a thing as the spirit of the mob. Otherwise law-abiding citizens, swayed by the mysterious influence of numbers, will in a mob commit deeds which individually they would be incapable of performing. This spirit is shown in hazing and other semi-barbarous deeds committed by college boys congregated in large numbers. In times of great public excitement, the effort of the police is to prevent the lawless element from congregating. The trust and great corporation, performing deeds inimical to public welfare, is an exhibition of the power over the individual of the group.

Here, then, is a mighty factor for good or for ill, and it is a matter of great interest to all people, irrespective of religious profession, that the church is a meeting together of the people upon a plane of high thinking and noble aspiration. The fellowship of good people, the elevating environment, the inspiring music, the reverent prayer, the concentration of the minds of the people upon great truths, the exaltation of lofty ideals of feeling and conduct,—these are some of the elements in this most potent and beneficial meeting place. No more important institution in the community exists than the church, and the future of the republic and the welfare of the people would be imperilled without this conserving and inspiring force.

That, however, which is of supreme importance is that the church is a meeting house of the people not only, even though upon a high plane, but of the people and God. The divine contact, the personal touch of man with God is the distinct contribution of the church to human welfare. Faith in the personal, the unseen God, the loving Father and Saviour of mankind, and in the reality of the spiritual life, of the Kingdom of God to be realized on earth, and of the hope of a blessed immortality—these are the inspiring harmonies that cool the fevered brow and still the turbulent heart, when the people assemble in the meeting house of God. Form such a meet-

ing the sinner goes forth to undo his wrongs and to learn righteousness, the youth to vallant endeavor, the strong man to fidelity, to trust and to heroic sacrifice for principle, if need be, the sorrowing to patient and cheerful service with renewed consciousness of the presence of the Burden Bearer, and the aged to a buoyant hope in the heaven of immortal youth.

A practical word as to the uses of this beautiful building will not be out of place at this time. This building belongs to the people and it will be consecrated to the glory of God. In reality it is two buildings in one. The auditorium, reverential in its design and appointments, we shall consecrate to the ministry of worship. There, confession unto God will be made and praise rendered, the word of God will be preached, and the sacraments administered. These rooms and the banquet hall below, we shall consecrate to social fellowship and to the educational work of the church. Here shall we meet for social intercourse and for the ministry of friendship. Here shall young life find expression to its effervescing spirits. In the rooms below shall young men and boys find healthful and attractive recreation. And thus shall we so use this building that it shall touch human life at many points for the good of all. It has given me great joy to witness the love and sacrifice which you are putting into this building which in due time we shall present to this city, this coastland, this nation, and to the service of the King for humanity everywhere. As His stewards we accept this trust that by means of this building we may hasten the coming of the kingdom.

MAUD BALLINGTON BOOTH REACHES LOS ANGELES

Mrs. Maud Ballington Booth of the Volunteers of America arrived in Los Angeles Saturday and is a guest at the home of Henry Allstrom, No. 719 Catalina street. She addressed a mass meeting in Temple Auditorium at 3 o'clock yesterday afternoon on "Glimpses of Prison Reform Work." On Monday morning at 11 o'clock she spoke to the students of Occidental College.

Bouquet of Anecdotes

Oberlin was the first coeducational college in this country. In the early days they had a rule that in case there were but one man and one woman in a room, at least one chair should be between them. One evening an instructor, passing one of the small sitting rooms, was horrified at beholding a young man and a young woman occupying the same chair.

"Sir," he demanded of the man student, "what is the meaning of this outrageous behavior? Do you not know the rules of the college?"

"Why—er—don't they say that if a man and a girl sit alone in a room they shall have one chair between them?"—Everybody's.

Admiral Moore tells a good story of a peppery old seaman under whom he served many years ago. During some tactical operations one of the ships of the squadron had made some bad blunders and at length the admiral completely lost his temper. He stormed about his quarterdeck and informed his hearers of his opinion of the officer in command of the erring ship. When he paused for want of breath he turned to the signaler and said to him, "And you can tell him that sir!"

The man scratched his head meditatively. "I beg pardon, sir," he ventured, "but I don't think we have quite enough flags for your message."—Tit-Bits.

A young couple of Liberty were walking past a dry goods store when the wife stopped to admire some of the dresses. After a moment she returned to where she had left her husband, and, grasping an arm, complained, says the Kansas City Star. "You never want to stop and look at anything that interests me. You don't care for me any more. You haven't kissed me in three weeks."

"It's not my fault, but my misfortune," replied the man, politely. It was not her husband.

He was a Scottish advocate, and in his pleading he had several times pronounced the word "enow" for "enough," says Tit-Bits.

"Mr. —," the judge remarked at length, "in England we sound the 'ough' as 'uff'—'enuff,' not 'enow.'" "Verra weel, ma lord," continued the self-possessed pleader, "of this we have said enuff; and I came, ma lord, to the subdivision of the land in dispute. It was apportioned, ma lord, into what in England would be called pluffland—a pluffland being as much land as a pluffman can pluff in one day and pluffmen—"

But his lordship could not withstand the ready repartee, and burst into a laugh, saying:

"Pray proceed, Mr. —; we know 'enow' of the Scottish language to understand your arguments."

INDIGESTION WILL VANISH

Makes Your Out-of-Order Stomach Feel Fine in Five Minutes

—Take your sour, out-of-order stomach—or maybe you call it indigestion, dyspepsia, gastritis or catarrh of stomach; it doesn't matter—take your stomach trouble right with you to your pharmacist and ask him to open a 50-cent case of Pape's Diapepsin and let you eat one 22-grain Triangle and see if within five minutes there is left any trace of your former misery.

The correct name for your trouble is food fermentation—food souring; the digestive organs become weak, there is lack of gastric juice; your food is only half digested, and you become affected with loss of appetite, pressure and fullness after eating, vomiting, nausea, heartburn, griping in bowels, tenderness in pit of stomach, bad taste in mouth, constipation, pain in limbs, sleeplessness, belching of gas, biliousness, sick headache, nervousness, dizziness or many other similar symptoms.

If your appetite is fickle, and nothing tempts you, or you belch gas or if you feel bloated after eating, or your food lies like a lump of lead on your stomach, you can make up your mind that at the bottom of all this there is but one cause—fermentation of undigested food.

Prove to yourself in five minutes that your stomach is as good as any; that there is nothing really wrong. Stop this fermentation and begin eating what you want without fear of discomfort or misery.

Almost instant relief is waiting for you. It is merely a matter of how soon you take a little Diapepsin.

JOHNSON WON GAME 2 TO 1

Great Pitcher Played Great Ball Against the McCormicks Yesterday

(By F. H. Mitchell.)

Johnson, played, won and pitched his final game for the Yellow Sox yesterday afternoon, when he beat the McCormicks by the score of 2 to 1.

Johnson was in good form all the way through the game, being most effective when men were on bases. But one clean hit was found amongst the three hits that were allowed by the big fellow, and he fanned eleven of the visitors.

Joe Seaton of the visitors, was also in good form, holding down the heavy batting Yellow Sox to four hits, and he took nine of them by the strike out method.

Anson Mott, the local first sacker, pulled off the sensational stunt of the day when he jumped up and pulled down Seaton's drive over first, thus making one of the prettiest catches ever made on the local diamond.

Score in the Second

The visitors scored their only run in the second, after going out in one two, three order in the first. Pittman opened with a single to center field. Newell was out to Mott by the foul out route. Pittman stole second; Kimmerle safe when Meats muffed the third strike, Kimmerle getting to second and Pittman to third. Manes was out on a long fly to right, Pittman scoring on the throw in. Crittenden fanned.

Yellow Sox Tie Score

The Yellow Sox were shut out up until the fifth, when they managed to cross the plate and tie the score. Johnson opened with a single to right, was sacrificed to second by C. Head. Mott out to Manes unassisted, Johnson going to third. Gandil came through with the needed bingle and scored Johnson from third. Gandil was out stealing second.

Winning Run in Eighth

The winning run came in the eighth, when Mott, the first man up, was safe on Seaton's error, stole second, went to third on Gandil's out at first. Brown hit a high bound-

er to Newell, who overthrew first, Mott scoring. Brown going to second. Meats ended it all by fanning. The score:

FOR CONSTIPATION

A Medicine That Does Not Cost Anything Unless It Gives Satisfactory Relief

—If you suffer from constipation in any form whatever, acute or chronic, we will guarantee to supply you medicine that we honestly believe will effect permanent relief if taken with regularity and according to directions for a reasonable length of time. Should the medicine fail to benefit you to your entire satisfaction we promise that it shall cost you nothing.

No other remedy can be compared with Rexall Orderlies for the easy, pleasant and successful treatment of constipation. The active medicinal ingredient of this remedy, which is odorless, tasteless and colorless, is an entirely new discovery. Combined with other valuable ingredients, it forms a preparation which is incomparable as a perfect bowel regulator, intestinal invigorator and strengthener. Rexall Orderlies are eaten like candy, and are notable for their gentle and agreeable action. They do not cause griping or any disagreeable effect or inconvenience, and may be taken at any time, day or night.

We particularly recommend Rexall Orderlies for children and for delicate or aged persons, because they do not contain anything injurious. Unlike other preparations, they do not create a habit, but instead they overcome the habits acquired through the use of ordinary laxatives, cathartics, and harsh physic, and remove the causes of constipation or irregular bowel action that are not of surgical variety.

We want you to try Rexall Orderlies at our risk. We know of nothing that will do you so much good. They are prepared in tablet form in two sizes: 36 tablets 25 cents, and 12 tablets 10 cents. Remember you can obtain Rexall Remedies in Santa Ana only at our store,—The Rexall Store. Dean's Drug Store.

Churches Fighting Tuberculosis
Some of the churches of our large cities are conducting tuberculosis classes for patients who are unable to leave their homes for institutional treatment. Classes are held once a week. Each patient brings to the clinic, or "class" a book in which he has recorded his weight, symptoms, sleep, habits (amount of open air, etc.) The physician examines this report, and gives suggestions as to improvement in diet, habits, care, etc., or perhaps detects some special symptoms that should have treatment. This touch with the daily life of the patient gives the physical opportunity to regulate conditions for the patient nearly as well as in a sanitarium. Excellent results are reported from some of these classes.

FIFTEEN NAMED FOR CONFERENCE

Talked Over Bringing Out Can-
didates for County
Officers

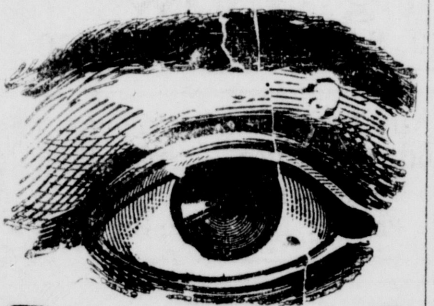

At the meeting of the Democratic Central Committee Saturday afternoon in Dr. Gordon's office, fifteen vacancies in the committee were filled by appointment by the chairman, Dr. Gordon, and ratification by the central committee. Ten delegates to the Democratic state conference to be held in Los Angeles on April 12 and 13 were named. There was much talk among the members of the committee of probable and prospective candidates for Democratic nomination in the coming county campaign, but no definite action was taken toward getting out candidates.

Another meeting of the central committee will be held soon.

The vacancies on the county central committee were filled as follows:

Santa Ana, No. 1, J. A. Turner; No. 2, William McKinney; No. 3, Fred Rohrs; No. 4, M. A. Menges; No. 5, W. L. Duggan; No. 6, H. C. Head; Laguna, Oscar Warling; Los Alamitos, James Heaston; La Habra, T. L. Jackson; Olinia, William Johnson; Orange, B. F. Porter; Orange No. 2, Edward Evans; Yorba, Peralta; Placentia, William McFadden; Newport Beach, George Peabody. The Democrats feel that their machinery is now in shape for the campaign.

The ten delegates to the state conference are Edgar Johnson, Fullerton; D. W. McDannald, Berrydale; W. T. Newland, Huntington Beach; G. B. Miller, Buena Park; J. D. Moore, Orange; W. L. G. Haskins, Tustin; J. J. Schneider, Placentia; H. C.

REV. PARSONS' ADDRESS TO BUSINESS STUDENT-BODY

Thursday morning the students of O. C. B. C. had the rare pleasure of hearing from an eminently successful and greatly distinguished graduate of that institution, in the person of Rev. A. L. Parsons.

Rev. Parsons was a Santa Ana boy and graduated from this school years ago when under the proprietorship of its founder, Mr. Robert L. Bisby. Since then Rev. Parsons has completed a university course and entered the ministry, being interested at the present time in conducting church schools.

He told of his struggles with poverty while a student, and inspired those whose means are limited with a realization of their real powers and by reminding them that while there is a will there will always be found a way. He further emphasized the fact that it is not so often the brilliant student as the "plodder" who makes good. "Pluck and determination," the speaker said, always wins.

His talk was practical and full of encouragement to those who are looking forward to a successful career with bright prospects for the future, and was much appreciated by all.

Prof. J. W. McCormac has been securing prominent business and professional men to make practical addresses to the student body every two or three weeks since this school opened under his management.

Among other good things that Rev. Parsons gave in his address was some good advice, which follows:

"It was ten years the 12th of this month that I graduated from this college. I was glad to get through, to finish my work, but I assure you that every day since I have been out of school, my happiness and gladness has been increased, because I find in my professional work as a minister, and also as a business man, that the training I received here was of great value to me. The Bible says, 'Whatsoever your hands findeth to do, do it.' That is a good place to stop reading that phrase 'do it.' A great many young people start to do something and fail to do it. It seems to me that the thing a person should know, a young person especially, is whether that thing they intend to do is right, and when he has determined that it is right, then he should do it, no matter what comes or goes. Stay with it until it is done.

"My home, in my boyhood days, was in Santa Ana, and I spent all my early years here, and soon after my father's death my mother urged me to enter college. I had no money and I said to mother, 'I have no money, how can I

enter college?' Her reply to me was: 'Do it.' I made up my mind that I would do it, and I did. I worked my way through school and college, came to Santa Ana and worked my way through this college. Since then I have worked my way through the university. I know what it means to have to work. I have been interested, up to the present time, in more than 600 schools and colleges, and my experience with young people and with those who leave our schools is this: That it is not the brilliant mind, that is, the mind that appears brilliant in passing high examinations, that goes through school quickly, that makes his or her mark in the world, but it is that student with the square face and a determination to do what he had started to do. No matter what comes, no matter what goes, do it. It is the person who starts to take a course of study, and stays with it night and day, no matter what discouragement may come."

WOMENS' WOES

Santa Ana Women Are Finding Relief at Last

—It does seem that women have more than a fair share of the aches and pains that afflict humanity; they must "keep up," must attend to duties in spite of constantly aching backs, or headaches, dizzy spells, bearing-down pains; they must stoop over, when to stoop means torture. They must walk and bend and work with racking pains and many aches from kidney ills. Kidneys cause more suffering than any other organ of the body. Keep the kidneys well and health is easily maintained. Read of a remedy for kidneys only that helps and cures the kidneys and is endorsed by people you know.

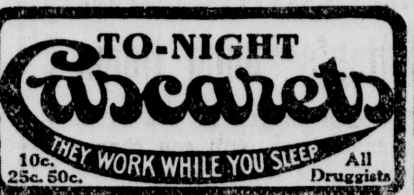

Mrs. E. J. Levengood, 928 West First street, Santa Ana, Cal., says: "I can still speak in praise of Doan's Kidney Pills and I willingly corroborate the public statement I gave in March 1907 regarding my experience with them. At this time I can say that I have had no need of a kidney medicine since taking Doan's Kidney Pills. They cured me of many disagreeable symptoms of kidney trouble and restored me to good health."

Fairest of "Red Mill" Beauty Chorus

If you could go through "The Red Mill" organization with a seine, say those who have seen the show, you would make a greater haul of beauties than you could get into two electric cars of average proportions. Of course, you'd find Cosmo Nicoli in your catch. She's one of the altitudinous girls, who, as Fifth avenue types, will stun the audience at the Grand, Tuesday night, with their grace. Fame has not yet caught her in its whirl and she has not stepped beyond the chorus line. Her beauty ought to establish her renown. She will be, it is asserted, the prettiest player in town next week.

TREMENDOUS ISSUE ON

The Taft bill for the regulation of railroads, introduced into the house by Representative Townsend of Michigan, is running against all kinds of snags. With the antagonism of all the great systems in the country to meet, this will not be wondered at. It has now come to a point where the government must regulate the railroads or the railroads will regulate the government.

This is a tremendous issue and will bring into active participation all the powers of the opposing forces. As the head of the government, Taft is on the one side and the railroad lobby on the other. To weaken the prospects of the measure, Taft is being attacked on every possible subject and in the most subtle and indirect way. The railroads do not scruple to avail themselves of the services of the insurgent journals over the country that are unwittingly (let us hope) lending themselves to the schemes of the private interests that are resisting government control.

What are we as a people going to do about it? Not a measure has been recommended by the President that is not in the direct interest of the people as a whole, and yet because of some vague ideas held by a few on the tariff, a stubborn and relentless opposition to Taft is working overtime, and this opposition can have no possible effect except to defeat the very bills which his opponents claim to favor.

There is something incongruous in this, and it leaves room for the suspicion that all is not right with the insurgents. It can do no good to rage about the tariff at this particular time, but it can do a whole lot of harm in the way of weakening the President's hands and by so doing, defeat necessary reforms. And this railroad regulation is one of the reform measures that is as badly needed as any on the list.

The situation as to the railroads is growing worse all the time and becoming harder to handle. Being allowed a free hand, they are entreaching themselves behind legislative barriers that are getting stronger and harder to carry as the years go by. We must act soon or we will be powerless to act at all. Already their defenses are well nigh impregnable as the opposition to regulation plainly shows. Let every true son of reform forget any crude notions he may have had on the tariff, and for the time so far as Taft is concerned, be "a standpatter."

How the "Machine" Does Politics Nearby

An Object Lesson from Riverside Showing Us What "Good Republicans" the "Regulars" Are

FROM THE RIVERSIDE PRESS

Riverside county at present has two Democratic supervisors, and their election term in this strongly Republican county is often wondered at. Here is a little incident which came to our notice a few days ago that may help explain the mystery:

It has been suggested that a Republican whom we will call Smith, because that is not his name, should be the Republican candidate against one of the Democratic supervisors this year. He is a man who would be likely to make a strong run and Mr. Democratic Supervisor is not anxious to have him nominated. He wants the Republicans to nominate a weak man so that he can defeat him. Accordingly Mr. Democratic Supervisor appeals to Frank Miller for help in this emergency and puts him wise to the fact that Mr. Smith has a near relative (Mr. Brown, we will call him) in government employ who might be influenced to advise his relative to keep out of the race for supervisor. Mr. Democratic Supervisor has apparently been serviceable to Mr. Miller, as well as to his newspaper organ; and he rushed promptly to his aid. He wrote an urgent letter to Washington to a certain California statesman who stands well with "the organization;" and he in turn wrote Mr. Brown, urging him to advise his relative, Mr. Smith, to have nothing to do with county politics in Riverside. He did not say that Mr. Brown might lose his job if he did not pull Mr. Smith down; but he made it quite clear apparently that he was expected to do so. His letter was forwarded to Mr. Smith and makes interesting reading.

Mr. Miller is one of the leaders of "organization" Republican politics in this state; he is a member of the state committee and has been a delegate to the national convention. And yet we find him using his best efforts to perpetuate Democratic control of the board of supervisors in Riverside county and getting help from Washington to do it.

Very interesting is it not? It reminds one of the campaign in this county not so very many years ago, when Tom Hays was chairman of the Republican county committee and the money of the committee was used to help elect Democratic supervisors.

The machine is really non-partisan; in this state it is usually Republican because the Republican party is in power; but it never hesitates to help a Democrat in preference to a Republican, if the interests of "the organization" will be better served that way.

It is about time in California that we turned over a new leaf in politics and declared our independence of the machine. And here in Riverside county apparently we might with good propriety begin at home.

WITNESS STOWE IS PUT IN JAIL ON CHARGE OF DRUNK

A. G. Stowe, who was a witness in a liquor case tried last week was arrested yesterday morning at 2 o'clock by Officer Boynton on a charge of being drunk. Stowe was in the city jail until toward noon when he was let out on \$5 cash bail. Stowe failing to appear in the recorder's court this morning, the bail was declared forfeited.

SUIT IS BROUGHT ON THREE NOTES

Suit on three notes of \$500 each has been begun in the superior court of this county by M. W. Findley against C. F. Taylor, E. L. Hazzard and Chas. Stanbury, with Attorney Freeman of Corona representing the plaintiff. The complaint states that the notes were signed at Long Beach on Jan. 29, 1909, by Taylor, with Hazzard and Stanbury endorsing it. Taylor has refused to pay the notes. Judgment for \$1500 with interest at seven per cent since Jan. 29, 1909, is asked.

The scenes around the wrecked village beggar description. Relatives from Wallace dug at the snow mass in the spots under which they believed the homes of their dear ones were located. Wallace is thronged with miners and others from the surrounding country, who are eager to go to Mace to aid in the rescue work. Arrangements are being made for other special trains to bear volunteers. Many are impatient and are walking the intervening five miles through the deep snow, armed with shovels and picks. A second special train loaded with rescuers left for Mace this morning. Local hardwaremen threw open their stores and distributed shovels and picks to the rescuers. Grocers are donating provisions.

A pitiable feature of the Mace disaster is the number of children who have probably lost their lives. Recently the mining companies imported many married men. They occupied cabins on the mountainside with their families. This district was swept clean by the slide and it is feared all have perished.

BURKE IS REPORTED DESTROYED TODAY

WALLACE, Idaho, Feb. 28.—The destruction of Burke, a mining camp adjacent to Mace, by a second avalanche, is reported today. A mass of debris is said to have buried the village. Burke is in reality a continuation of Mace. It is feared the second slide may have endangered the lives of the rescuers.

Weather conditions throughout the northwest have resulted in partial wire prostration, and the exact conditions of the stricken section could not be verified this morning.

Persons who own personal property, but no real estate will bear in mind that their tax is due when assessed and must be paid on demand to the assessor or his deputy.

The assessor has received from the auditor the poll tax and personal property books. The auditor has charged the assessor up with \$14,000, representing 7000 state poll tax receipts at \$2 each.

On August 1 he makes settlement for cash received and is given credit for returned uncollected receipts to balance the account, and has issued to him a new lot of receipts calling for \$3 for each tax because of the added delinquency penalty. Another settlement is made in January, 1911, on the delinquent list, and the unpaid poll tax receipts, which hereafter have a face value of \$4 each, are turned over to the tax collector to be realized on at delinquent tax sale of property in June, 1911.

JAPANESE TAKEN FROM TRAIN WAS CONTRABAND

Saturday afternoon an immigration officer from Los Angeles came here and took charge of H. Haseda, a Jap, taken from a freight train a few nights ago. He was arrested here for beating his way on the train. Suspecting that he was in the country illegally, the federal authorities were notified by local authorities, with the result that Haseda must answer to Uncle Sam.

DO YOU KNOW WHY

We have sold the Starr line of pianos for over fifteen years?

BECAUSE we have never yet sold one that did not prove to be entirely satisfactory.

BECAUSE they are all High Grade Pianos.

BECAUSE they build every known kind of instrument in the piano line.

BECAUSE their prices are reasonable and terms to suit everyone.

BECAUSE they operate the largest factory in the world building pianos exclusively.

BECAUSE they have taken the grand prize at the different world's fairs for the last thirty years.

BECAUSE none but skilled workmen are employed in their factories.

BECAUSE their system of inspection absolutely results in perfect construction.

BECAUSE our former customers are our best advertisers.

BECAUSE we believe our pianos are second to none.

The Starr line of pianos comprise the Starr, Richmond, Trayer and Remington pianos, made in the largest piano factory in the world, with large resources, immense lumber yards and perfect equipment. Sold either for cash or on the easy payment plan. Don't put it off. Get that piano you have been talking about, NOW.

Mr. Howland Entertains

Saturday evening Mr. Clint Howland entertained a number of his friends at his handsome home on Washington avenue. The evening was very pleasantly spent with games, and a very nice program was rendered by Mr. Howland and some of his guests. At its conclusion the guests repaired to the dining room, where Mr. Howland served delicious refreshments. The guests departed at a late hour, after voting Mr. Howland as one of the best of entertainers.

Those present were Mesdames Berry, C. Berry, McCarthy and McTaggart; Misses Nellie Berry, Alva Martin, Margaret McTaggart, Julia Ryan, and Reuter; Messrs. Charlie Berry, James Ryan, Ray and Ralph McTaggart, Theo. Reuter, Bernard Camfield and Loftus Morrison.

the progress of the organization for the past year.

The first function of the evening was a substantial supper served from 6:30 to 8 o'clock. The dining room in the basement of the church was beautifully decorated with greenery, smilax being used, and in the center of each of the tables was a bouquet of fragrant violets. The younger members of the church waited efficiently on the tables. Following the supper the company assembled in the auditorium of the church and heard the annual reports of the work of the various branches of the church, all indicating solid progress and improvement.

Sunday Luncheon

At 1 o'clock yesterday a five course luncheon was given by Mrs. Henry Diers in honor of her husband's birthday and the anniversary of the marriage of her daughter to Mr. Arthur Pease. Fresias, violets and ferns were tastefully used in decorations, and a conspicuous and interesting item of the elaborate menu was a handsome birthday cake with candles, how many it must not be said. The event was a most felicitous one and was thoroughly enjoyed by the fourteen people for whom covers were laid at the handsomely appointed table.

Choral Service

The First Baptist church choir, under the direction of Percy K. Lusk, gave another of its monthly choral services last night. Mr. Lloyd Sharp's solo, "Hosanna," was good, and the duet, "My Faith Looks Up to Thee," by he and Miss Petersen, was impressive. The organ work as usual, pleased the congregation.

Dr. Garnett's sermon, "An Enlarged Heart," had for sub-topics, Enlargement to God's Revelation of Himself; to His Expanding Bible Truth; His Word and His Son and Service.

That "Red Mill" Window

Inspired by the near-at-hand production of the famous Herbert-Blossom production, "The Red Mill," F. W. Fuller of the Dragon, has designed a Red Mill window, which is just now giving real joy to the public in general and catching the gaze of every passerby. The picture, all done in sugar, with the exception of the arms of the windmill, the grove and the vehicle in the road, occupies the whole floor space of one of the Dragon show windows and is true to life. The red mill, the sand road leading up to it through the fields, fenced in with an old-fashioned rail fence, the men and women in Dutch costume, and the grove flanking the mill, unite in an ensemble that is as clever as the red mill with its branching arms is quaint. Mr. Fuller is an artist in sugar, whose creations are catchy, interesting and true to his conceptions.

Was Eighty Years Old

Mr. Samson Edwards reached the venerable age of eighty years last Saturday, and there was a notable assemblage at his home on Ross and Tenth streets, when a large family gathering took place, the affair being a surprise to Mr. Edwards. Of the four sons, 29 grandchildren and 19 great grandchildren, descended from Mr. Edwards, there were a large

number present. Well filled baskets of appetizing viands were taken to the house by the visitors, and at noon the contents were spread in a dinner that combined substantial and delicacies galore, including fried chicken and lemon pies. A huge birthday cake, embossed with Mr. Edwards's name and age, was the center of attraction.

Gifts were presented, and a postal card shower of 125 cards proved to be a great pleasure to Mr. Edwards. The cards came from many Eastern states and some were from friends not heard from for thirty years. Postal cards were still being received today, and some of Saturday's guests are still at the Edwards home.

Mr. Edwards is hale, hearty and happy, with his honorable crown of 80 years, and is receiving congratulations of many friends. Four counties were represented at the celebration: Orange, Riverside, Imperial and Los Angeles.

GOOD WAY TO DO BUSINESS
—When one can buy gold dollars for fifty cents, it is a good time to purchase.

In ordering a 50c bottle of Dr. Howard's celebrated specific for the cure of constipation and dyspepsia at 25 cents, the Rowley Drug Co. is giving one of the greatest trade chances ever offered to the people of Santa Ana.

If food does not digest well, if there is gas or pain in the stomach, if the tongue is coated and the breath bad, if there is constipation and straining, Dr. Howard's specific will cure you. If it does not, you have the Rowley Drug Co.'s personal guarantee to return your money.

This remarkable remedy comes in the form of tiny granules, and can be carried in the vest pocket or purse. It is very popular in New York City, and it is not unusual to see someone after a meal at one of the large hotels or restaurants, taking a dose of this specific, knowing that it will prevent the uncomfortable feeling which frequently follows a hearty meal.

Dr. Howard's specific gives quick relief and makes permanent cures of constipation, dyspepsia and all liver troubles.

EXAMINE ROWLAND THURSDAY MORNING

Accused Burglar is Pleasant Mannered—Says He Worked at Corona

John O. Rowland, charged with burglarizing McFadden's Hardware Store on Feb. 11, will have his preliminary examination before Justice Smithwick on Thursday morning at 10 o'clock. This morning Rowland was before the justice and was informed of his rights. Rowland said he knew of no witnesses he could call except a man named Corkhill at Corona, for whom he worked, by whom he could show he was steady and hard working, and not a loafer about the streets. Rowland said he is a painter by trade, and came to this state three months ago.

Rowland is a tall, pleasant mannered fellow, and so far as looks and talk is concerned is not of the tough hobo type. He was arrested at Riverside in a hobo camp. He had two revolvers in his possession. These firearms were among those stolen from the hardware store.

WHO ARE TO BE COUNTED BY THE CENSUS ENUMERATORS?

Information Valuable To Both Community And To Enumerator—Hints To Aid In Census Taking

WASHINGTON, Feb. 28.—The explicit and lengthy printed instructions to the census enumerators, which have been printed by the United States Census Bureau, give a clear idea of the answers expected from the people of the United States with regard to the questions in the population schedule to be carried in the decennial census April 15 next.

All answers are to have reference solely to the "Census Day," which is April 15. Persons living on that date, but who died after it and before the enumerators call, are to be counted, but persons born after April 15 are not to be included in the count. Persons who were single on April 15 are to be reported as single, even though they have married subsequently and before the canvasser has called. This is true, similarly, of persons who became widowed or divorced after April 15.

The census law provides that all persons shall be enumerated at their "usual place of abode" on April 15. This means the place where they may be said to belong, or the place which is their home. As a rule, the usual place of abode is not the place where a person works or where he eats, but where he regularly sleeps. The enumerators are cautioned, however, that where a man happens to sleep at the time of the enumeration may not be the place where he regularly sleeps.

There will be a number of persons having their usual places of abode in enumeration districts who will be absent April 15. These are to be included and enumerated after the facts regarding them have been obtained from their families, relatives, acquaintances or other persons able to give the information. For instance, if a member of any family in an enumeration district is temporarily away from home on a visit, or on business, or traveling for pleasure, or attending school or col-

lege, or sick in a hospital, such absent person is to be enumerated and included with other members of the family. But a son or daughter regularly living in another locality should not be counted with the family at home.

Servants, laborers, or other employees, who live with the family, and sleep in the same house or on the premises, should be enumerated with the family.

The Census Bureau states that there will be, on the other hand, a certain number of persons present and perhaps lodging and sleeping in districts at the time of the enumeration who do not have their usual places of abode there. These are not to be enumerated. It must be assumed that they will be enumerated elsewhere. The canvassers should not, therefore, unless it is practically certain that they will not be enumerated anywhere else, enumerate or include with the members of a family they are enumerating any of the following classes:

Persons visiting a family. Transient boarders or lodgers who have some other usual or permanent place of abode.

Students or children living or boarding with a family in order to attend school, college, or other educational institution in the locality but not regarding the place as their home.

Persons who take their meals with a family but lodge or sleep elsewhere.

Servants, apprentices, or other persons employed by a family and working in the house or on the premises, but not sleeping there.

Any person who was formerly in a family, but who has since become a permanent inmate of an asylum, almshouse, home for the aged, reformatory, prison, or any other institution in which the inmates may remain for long periods of time.

his official axe and began chopping off the branches of this tree—pruning down the army of various officials.

First, he lopped off that magnificent branch which joined the main trunk near the top and was labeled "Financial." The splendid shoot which tapered down to the label "Law" was next ruthlessly removed. Then, the crowning glory of the tree, that fat branch, "Educational Division"—it was also called "Division of Information," and ought to have been dubbed "Press Bureau"—was sacrificed. There may be more chopping in the future.

Secretary Wilson has so circumscribed the duties of the forest service that all there is left to do is to grow trees, and water those already growing. Henry Solon Graves, Pinchot's successor, has already announced that this is his slogan. He has decided to let the family tree of the service worry along without any attention, and to let time heal its grievous cuts.

The Chief Forester doesn't pose as an organizer. Pinchot was. There is no higher compliment to his energies than the present centralization of affairs in the forest service, the outgrowth of his ideas, the work of his brain. Graves is a tree-grower pure and simple—and says so himself.

He has studied for years about trees and he knows them. He is anxious to grow trees, but is not apt to go beyond that point, first because he does not want to and second because Secretary Wilson won't let him do it if he did.

Graves studied forestry first in the University at Munich, Germany. He came away from there chuck full of tree lore and then wandered around Switzerland, Germany and Austria. When he came back to the United States he found Gifford Pinchot here—then the only "consulting forester" in captivity in America. Graves joined with Pinchot and the two hung out a partnership shingle.

The firm got just one client, the Vanderbilt estate at Biltmore, N. C. So well did Graves do his part of the work there that when a man was needed to tell the Interior Department about trees he was chosen.

Then the Yale University discovered in him the right man to fill a professorship in the new school that the elder Pinchot had given it. Graves accepted and he has been there ever since, until his appointment to the post of Chief Forester.

It cost the United States government \$24,000 the other day to debate the question of whether portraits of some of the former speakers of the house should be painted in oils and hung in the corridors. The bill carried an appropriation of \$5000, so the pictures will cost \$30,000 when completed.

It took two hours to pass the bill. Some of the economists raged against it. Some of them have now calculated that on a basis of salaries, it costs the house \$150 a minute to operate. This made \$24,000 expended in the effort to save \$8000. And this estimate does not include the heating and lighting of the U. S. capitol or the interest on what the building cost.

Incidentally there was just two hours debate on the River and Harbor bill carrying \$40,000,000 and authorizing the expenditure of \$201,000,000 more, when that measure was put through the house.

Neuralgic pains that strike him in the jaw punctually at 5 a. m. daily are responsible for the fact that Senator Money of Mississippi is the earliest riser in his branch of the national legislature and that his secretary is the most enterprising stenographer about Capitol Hill. Every morning by breakfast time the senator's correspondence is out of the way and his secretary has practically all the rest of the day to himself. The hardest work he has to do is to "keep office" during the remaining governmental hours.

What is particularly remarkable as well as agonizing about Senator Money's peculiar style of neuralgia is the fact that it has been visiting him regularly at the same hour every day for fourteen years. All sorts of prescriptions have been tried in vain to ward off the attacks, and all sorts of drugs, and rubs, and shocks, have been resorted to for relief from the pain while it lasts. In spite of all remedies and treatments Mr. Neuralgia bobs up serenely every morning at five, remains for a little less than two hours, and then departs as suddenly as he arrives.

Finding that close attention to work caused him to forget the pain, the senator got into the habit of plunging into his correspondence as soon as the neuralgia was felt. His secretary soon adapted his hours to those of his chief, and, as a result, the Mississippians' letters are always in the local postoffice nearly a half a day ahead of those sent home by the other senators.

OUR WASHINGTON LETTER

WASHINGTON, Feb. 28.—Down at the Forest Service, on the wall of the office which "Giff" Pinchot used to occupy, hangs what appears to be a family tree. It has little wiggly branches, zig-zagging out from a main shoot. The trunk, so to speak, was labeled "Forester," and the branches were designated as "operation," "silviculture," "silvage."

In Pinchot's day, that family tree was a pretty graphic plan of the organization of the Forest Service. It showed just the relation each of the subsidiary divisions of the bureau bore to the other; it indicated who

was responsible. At a glance one could see whether grazing matters were handled under "operation," or "maintenance," or "products," or what not.

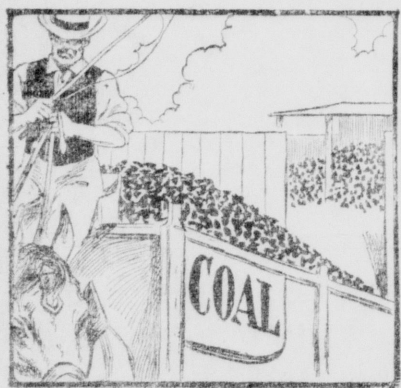

But now the artist who should attempt to reconstruct the thing would have to break the symmetry of its branches and the tout ensemble would resemble nothing so much as a Christmas tree after two months in the back yard.

No sooner had Pinchot been dismissed by presidential order than Secretary of Agriculture Wilson took up

The Knock-out Blow.

The blow which knocked out Corbett was a revelation to the prize fighters. From the earliest days of the ring the knock-out blow was aimed for the jaw, the temple or the jugular vein. Stomach punches were thrown in to worry and weary the fighter, but if a scientific man had told one of the old fighters that the most vulnerable spot was the region of the stomach, he'd have laughed at him for an ignoramus. Dr. Pierce is bringing home to the public a parallel fact; that the stomach is the most vulnerable organ out of the prize ring as well as in it. We protect our heads, throats, feet and lungs, but the stomach we are utterly indifferent to, until disease finds the solar plexus and knocks us out. Make your stomach sound and strong by the use of Dr. Pierce's Golden Medical Discovery, and you protect your health and your most vulnerable spot. "Golden Medical Discovery" cures "weak stomach," indigestion, or dyspepsia, torpid liver, bad, thin and impure blood and other diseases of the organs of digestion and nutrition.

The "Golden Medical Discovery" has a specific curative effect upon all mucous surfaces and hence cures catarrh, no matter where located or what stage it may have reached. In Nasal Catarrh it is well to cleanse the passages with Dr. Sage's Catarrh Remedy fluid while using the "Discovery" as a constitutional remedy. Why the "Golden Medical Discovery" cures catarrhal diseases, as of the stomach, bowels, bladder and other pelvic organs will be plain to you if you will read a booklet of extracts from the writings of eminent medical authorities, endorsing its ingredients and explaining their curative properties. It is mailed free on request. Address Dr. R. V. Pierce, Buffalo, N. Y. This booklet gives all the ingredients entering into Dr. Pierce's medicines from which it will be seen that they contain not a drop of alcohol, pure, triple-refined glycerine being used instead. Dr. Pierce's great thousand-page illustrated Common Sense Medical Adviser will be sent free, paper-bound, for 21 one-cent stamps, or cloth-bound for 51 stamps. Address Dr. Pierce as above.

LOS ANGELES PRODUCE MARKET

Vegetables were in excellent demand yesterday morning. Asparagus, which is daily increasing in quantity, dropped to 40 cents a pound. Celery sold at \$2.50 per crate. There is considerable complaint among the dealers on account of quality. Much of the celery is very dirty and should be washed before packing, while some of that arriving has been left standing for several days, showing plainly a wilted condition. Cabbage was down to 65 cents a sack as an average. Some brought as high as 90 cents. Lettuce was a little more plentiful, but quality is still lacking. There was a big increase in the supply of green peas and the market on these was down to 7 cents. Cuban egg plant arrived yesterday in quantity and sold at 25 cents a pound, an advance of 5 cents over the old price. Cucumbers were scarce. Bell peppers were boosted to 35 and 40 cents a pound.

The market on eggs was steady. Case count were just a fraction off. They sold down to 23 cents a dozen. The price on storage was very fair, some stock selling at 18 cents in a jobbing way. Receipts were 399 cases. Butter prices were steady. Receipts were 27,820 pounds, above the average because of stock delayed in shipment coming in. The demand was good on eastern stock.

Imported Swiss cheese, eastern daisy and northern fresh were the varieties which sold best on offerings. Prices were all firm. Further increases are looked for.

Potato receipts were 807 sacks. With the very light arrivals of the past two days, the market has been steady and the absence of receipts is helping to clean up the little surplus on hand. Oregon Burbanks, Idaho and Highland potatoes were all well called for.

There were no changes in the onion market. Offerings of northern and Nevada onions were numerous, but all of small size. A few Oregon globes were also offered. Garlic continues to sell at 5 cents among the trade. Lima beans were the only variety on the list which moved readily. There were no changes in any prices.

Several boxes of Mexican limes were sold at \$1.25 per hundred. They are rather oversized, looking very much like small lemons and are not up to usual demand quality. The demand for oranges continues good. Lemons are moving in a desultory manner. Unpacked stock is averaging \$1.50 per box. Grapefruit is in very good call.

HOW BEAN MEN RAISED PRICE

Growers Gathered at Myford
Heard Benefits of Asso-
ciation Discussed

There were about twenty-five bean growers present Saturday afternoon at the meeting held at the Myford school house. The purpose of the meeting was to hear about the work of the Ventura County Bean Growers Association during the last year. Mr. Kaufman and the three members of the executive committee of that association were present and gave a history of their work during the last season.

Last year was the first one that the association has taken any active part in maintaining the price of beans. Early in the fall, when the commission men were running the prices down on account of having sold short in the east, the association came into this field and bought beans at a price above the prices offered here. They have been fighting the independent buyers all year, who are said to have lost considerable money through having sold short. Within the last month the price of beans has soared from \$3.90 to \$4.25 per hundred. The Ven-

tura association men point to their work and ask that the ranchers here join in the work. Last year it was necessary to buy beans to keep the price up, but now they want only new members who will pool with their beans and so not make it necessary to buy this year.

In addition to the fifteen or sixteen old members there were only a few more joined the Ventura association. There was advanced an objection to joining this association in that an entrance fee is charged each member which entitles him to permanent membership. This is what the local ranchers object to for unlike the Ventura ranchers they are only renters while the Ventura ranchers own their land. Many of these San Joaquin ranchers feel that there should be a local association independent of the one in Ventura county, owing to the difference in condition of the ranchers. There are about one-third of the local bean growers in the association while the others remain out for that and other reasons.

BORROWS RIG NOW ARRESTED

Unpaid Board Bill Results in
Inquiry for Missing Man,
Horse and Buggy

Gregorio Palomares of this city is held in Riverside on a criminal charge brought against him in this county. A short time ago Palomares, who was boarding on Hathaway street in this city, borrowed a horse and buggy from Jeraldo Preciado of Olive. A short time ago, Palomares having failed to pay his board bill here, his landlord began to inquire as to the whereabouts of Palomares. Palomares was not at Olive as the landlord thought he was. This inquiry set Preciado to investigating, and he concluded that he was out his horse and buggy. Word was sent out by Sheriff Lacy, with the result that Palomares was arrested in Riverside and word sent here to the sheriff.

SLASHED MAN ON LEFT ARM

Tustin Mexicans Fight and One
Man is Cut in Forearm
by De la Fuente

Charles Quintana has a gash in his left arm from a knife cut, and Manuel de la Fuente, who inflicted the wound, is in the county jail. The two men had a row at Tustin, where they live, last night. The two men had been drinking. Just why they decided to annihilate each other does not appear, but the fact is that Quintana was struck with a knife.

Word that there had been a cutting scrape on E street, Tustin, was telephoned to Sheriff Lacy last night about 11 o'clock. The sheriff and Officer Cervantes went to the place. Quintana was in his house nursing his wound, while the other man was at his own home a short distance away. Fuente served a sentence in the county jail five years ago, as the result of a brawl.

EXPECT TO BUILD BUNGALOW ON SITE RECENTLY BOUGHT

A deed to a lot on French street between the residence of A. J. Visel and the residence recently sold by W. L. Miller to W. D. Baker was recorded today, the transfer being from Mr. and Mrs. A. J. Visel to Mr. and Mrs. W. L. Miller. The lot has been cleared of eucalyptus trees that were growing upon it, and Mr. and Mrs. Miller expect soon to commence the erection of a two-story bungalow upon it.

—The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

ACTION IS DISMISSED PLAINTIFF SATISFIED

A dismissal of a suit for a \$650 real estate commission was dismissed in the superior court today at the request of Attorney Bell for the plaintiff, W. E. Gephart. The defendant was the California Farm Lands Co. The action was brought as the result of a trade of Orange and Tulare counties lands. The commission, according to the complaint, was \$750, of which \$100 was paid. The dismissal carries with it a receipt in satisfaction of the action.

The Kansas Tin Shop

has been looking up roofing material and of all the kinds used or offered on the market at a price (within reasonable figures) we find rugged galvanized iron is the best, where the pitch of the roof is not less than one inch to the foot.

Often a still flatter roof may be covered with corrugated iron, but it is taking some chances.

Or this iron can be used without solid sheathing under it. It makes the cheapest good roof that can be made.

A tin roof is good and lasts a long time if kept well painted and can be used on almost flat roofs, but it requires full sheathing under it and costs more than corrugated iron.

Then comes the Tarred Felt with a multitude of names, among which is Rubberoid and this is one of the best "paper roofs" (so-called). The manufacturers guarantee any of this material for three to five years. Our new school houses are covered with this material. We don't know under what name those roofs were covered, but probably with close watching and occasional repairs, those schoolhouses will not need a new roof for five years.

We can furnish you any kind of a paper roof you want, or corrugated iron that will last a half century, or we will put on a tin roof that will give satisfaction after all the paper roofs are forgotten.
